Rasmus Runberg

Agile IT Manager

I am an experienced Agile IT Manager with more than 10 years of managing IT projects and products.

With a degree in Computer Science and International Project Management, combined with professional experience and skills in product management and ownership as well as agile development tools, I have the perfect toolbox and combination for delivering awesome and innovative results

I'm determined to keep a very Agile and LEAN team organization and development approach - always with focus on value and transparency, while making sure the client and users are fully onboard.

I also have expertise in key account management and building customer relations - and combined with several years of teaching as well as direct client contact, I have achieved a great set of communication skills.
